# Introduction of HTFC

WELCOME TO HI-TECH FIRE CONTROL SERVICES has been established since 2020-21. We install and maintain intruder alarm systems, fire alarm systems, fire extinguishers, intercom systems, Access control systems, CCTV, emergency lighting systems and Nurse call systems for the domestic, commercial and industrial market.

We design security systems to suit your requirements and provide personalized service and installation. With our 'Customer First' approach HTFC has successfully provided solutions to diversified market segments such as Au Manufacturing, Automotive, Buildings, Pharmacy and many more…..

# Organisational Structure

To serve our valuable customers in a better way
we have specialized Business Units

**Projects Division**

**Engineering & Consultancy Division**

**Customer care Division**

A Driving division handles Sales and Execution of new projects with a wide range of offerings.

In house technical department to meet all technical needs of organization through Design and Engineering. Takes care of new solution developments.

A highly Customer Focused division providing various Maintenance Services & Even do small projects.

# Solutions We Offer….

- IP & Analog CCTV System
- Fire detection & alarm system
- Fire suppression system (Gas, Water Mist, Foam)
- Public addressing system
- Professional audio
- Access control system
- Integrated building management system
- Intrusion system

| CCTV | Fire Alarm | Gas suppression | Fire Fighting | PA system | Access Control |

# HI-Tech Fire Control Services

Your partner for every solution..

# Solutions we offer…

**IP surveillance:**

We provide CCTV solutions for Commercial and industrial sectors. We had successfully installed security systems in different Government and Private sectors. Ensure you that your property and assets are protected 24/7. Call us today to implement a customized security solution to protect your business.  We give solutions for City Surveillance, Perimeter supervision, Road safety monitoring, Indoor-Outdoor safety solutions

## Fire Alarm System:

HI-TECH FIRE provides fire alarm system solutions for  commercial a nd industrial sectors.

A fire alarm system has a number of devices working together  to detect and warn people through visual and audio appliances when  smoke, fire, carbon monoxide or other emergencies are present. These    alarms may be activated automatically from smoke detectors, Heat  detectors or may also be activated via manual fire alarm activation  such as manual call points or pull stations. We provide addressable fire  alarm system which gives better flexibility than conventional system.

# Solutions we offer....

## Public addressing system:

A public address system (PA system) is an electronic system comprising microphones, amplifiers, loudspeakers and related equipment. PA systems are used in any public venue that requires that an announcer, performer, etc. be sufficiently audible at a distance or over a large area. Typical applications include sports stadiums, public transportation vehicles and facilities, and live or recorded music venues and events.

We have Certified, Trained, Specialised team for PA system to give better solution.

## Access control system:

In the fields of physical security and information security Access control (AC) is the selective restriction for access for a place or other resource. The act of accessing may mean consuming, entering, or using. Permission to access a resource is called authorization. Locks and login credentials are two analogous mechanisms of access control.

We also provide biometric solutions, attendance tracking, boom barrier system for security. This are IP based system which are flexible for future expansion.

# Solutions we offer....

## Intrusion alarm system:

An intrusion detection system (IDS) is a device or software application that monitors a network or systems for malicious activity or policy violations. Any malicious activity or violation is typically reported either to an administrator or collected centrally using a security information and event management (SIEM) system. A SIEM system combines outputs from multiple sources uses alarm filtering techniques to distinguish malicious activity from false alarms. It is used for perimeter protection for different areas.

## Gas Suppression system:

Gas Suppression is clean agent fire suppression, is a term to describe the use of inert gases and chemical agents to extinguish a fire. These agents are governed by the National Fire Protection Association (NFPA) Standard for Clean Agent Fire Extinguishing Systems – NFPA 2001 in the US, with different standards and regulations in other parts of the world. We have certified with license for Gas suppression system.
Also have trained team for Execution and Design of gas suppression system

# Fire Alarm Panel (We offer Below Make)

**NFS2-640**

MR-2100/MR-2200 Intelligent Fire Alarm Control Panel
(shown with optional LED modules)

# We are Authorized Business Partner of Heinrich ELV SYSTEM

**HEINRICH**

Certificate No. 200984

HEINRICH authorised this certificate to our best partner for PAVA system, audio-video system, nurse call system, CCTV surveillance system, fire alarm system & completed training on our products & assured service to our valuable customers.

**Authorised Business Partner**

**Hi Tech Fire Control Services**

Reg. Address: Office No. 1346,1, Lane No. 16, Ground Floor, Ubale Nagar, Wagholi, Ahmadnagar Road, Pune.

For the year 2023-2024

LONDON:
Marshall Avenue Worthing Bn14 0ES, London
INDIA:
A62 1st Floor, DDA Sheds, Okhla Phase II, New Delhi,Ind

We are Authorized Partner of CP PLUS CCTV SYSTEM

RESELLER PARTNER

CP PLUS

This is to certify that

HI TECH FIRE CONTROL SERVICES
Pune, Maharashtra

is an Authorized
Partner for CP PLUS

Not valid for any tender purpose or online sale of
CP PLUS products

ADITYA KHEMKA
Managing Director – CP PLUS

Valid upto August 2024

INDIAN BRAND MANUFACTURING RESEARCH & DEVELOPMENT

# We are ISO Certified Company

# GAS SUPPRESSION ,GAS DETECTION

# &

# FLAME DETECTION

# SYSTEM

# NOVEC & FM-200 System- We offer
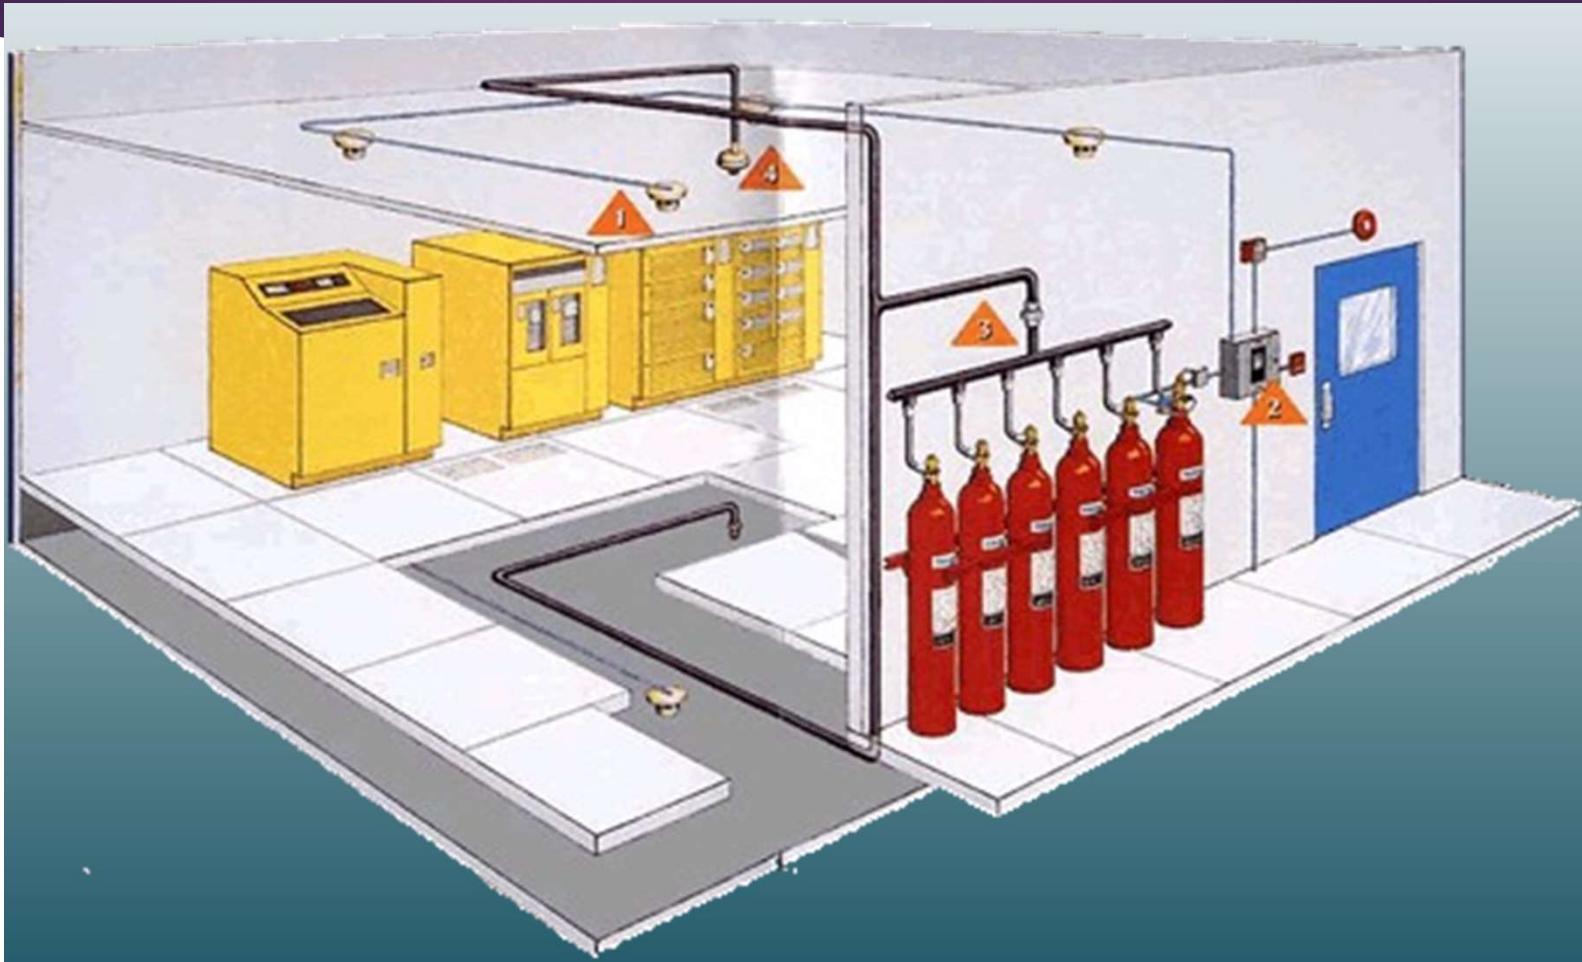

# Gas Detection System Integration with FAS- We Offer

**Flame Detection Sensors- We offer for OIL and GAS and Automobile Industries**

**UV/IR Flame Detector**                   **Triple IR Flame Detector**

# Integrity Test for Server Room – We offer Services..

# Server Pressurization Test- We offer..

**1.SERVER ROOM**       **2.UPS ROOM**

  **3.BATTERY ROOM**      **4.ELECTRICAL PANELS ROOM**

- CCTV:

**CCTV AND SECURITY:**
• Everyone needs to feel secure at home, and in the workplace.
• Surveillance cameras, alarms, security lighting all have a part to play.
• Linking them with your control system can ensure an unobtrusive but seamless safety net to protect your most precious assets.
• Closed-circuit television (CCTV) allows you 24-7 monitoring, both inside and outside the house.
• **Long distance camera monitoring using Point to Point technology**
• The latest in CCTV technology guarantees your home is always safe from unwelcome visitors… Alarm systems then notify you even if you are halfway across the world.

# CCTV and Security- We offer

# ACS and Security- We offer

**ACCESS CONTROL SYSTEMS**

• Centralized, Flexible, Expandable architecture.

• Multiple access groups, time zones, door groups, holiday groups.

• Supports multiple card formats on same system .

• Door held, Door forced alarms.

• Door Interlocking.

• User defined Input / Output integration.

• Fire alarm system integration.

• Door enabling, disabling.

• **SMS integration – Open/close, enable/disable doors by sending SMS.**

• User defined alarms with SMS/popup to admin.

# Latest & Trending Solutions- We offer..

# Panel Protection System

- Designed to protect Electrical Enclosures and Circuitry

- Automatically detects and suppresses fire

- No electricity required

- Installs directly INSIDE electrical cabinets – closer to where a fire can start

- UL and FM-approved systems available

# CNC & SPM Protection System

- Designed to protect Electrical Enclosures and Circuitry
- Automatically detects and suppresses fire
- No electricity required
- Installs directly INSIDE CNC Machining Cabins – closer to where a fire can start
- UL and FM-approved systems available

# Kitchen & Pantry Area Protection System

- Designed to protect Commercial Kitchens
- Automatically detects and suppresses fire
- No electricity required
- Protects cooking zones – directly above where a fire can start
